

Want to use up all that leftover sock yarn? Or want to learn how to make stripes in the round without the “jog”? Spiral Stashbusters is for you!!

Specs for Spiral Stashbusters

1. If you want to make these socks (you can easily make these socks if you have ever made a pair of plain vanilla socks), get your leftover sock yarn together, and download a copy of my pattern, available for [free on Ravelry here](#):

<https://www.ravelry.com/patterns/library/stash-buster-spiral-socks>

- Any color or type, though including some multi-color, self-striping, jacquard, gradient or other non-solids will make your socks more fun. The total amount of sock yarn you will need is 300 - 400 yards, depending on the size of your feet and how long you want the sock. Pick one solid color of which you have at least 75-100 yards (or 25 grams), and cast on the number of stitches based on the size (56, 64 or 72 stitches) on size 1.5 (2.5mm), to work in the round.
- You can use two circs or magic loop, but if you can do it on double points, that will make the process easier.
- Do your ribbing (1.25 inches, or as long as you like) of 2x2 or 1x1 ribbing. Then bring it still on the needles with all your various sock yarn.

2. If you don't want to make socks now, but want to learn the technique, cast on at least 48 stitches of any yarn in the round, and knit a row or two. Bring at least three additional yarns of the same weight with you.
